*“Cultivating Leaders, Inspiring Scholars, Serving God.
Providing a well-rounded, Catholic values-based education
that unleashes the potential of our students.”*

CONWELL-EGAN

CATHOLIC HIGH SCHOOL

A Coed Catholic High School for Grades 9-12

Thomas J. Lynch
President

Tom Lynch is the Chairman of the TE Connectivity Board of Directors and current President at Conwell-Egan Catholic High School. TE Connectivity is a \$15 billion global technology and manufacturing leader. Mr. Lynch served as the company's Chief Executive Officer from January 2006 to March 2017.

While at TE Connectivity, Mr. Lynch served as a member of the US-China Business Council (USCBC), a leading organization in building commercial relations with China, and as a member of the President's National Security Telecommunications Advisory Committee (NSTAC), appointed by Presidents Bush and Obama.

Prior to becoming Chief Executive Officer of TE Connectivity, Mr. Lynch held executive positions with Tyco International, Motorola and General Instrument Corporation.

Mr. Lynch serves on the boards of Thermo Fisher Scientific Inc., Cummins Inc., Automatic Data Processing, Inc., and on the boards of trustees for The Franklin Institute (Philadelphia, PA), and Rider University (Lawrenceville, NJ). He is Chairman of the Board of Limited Jurisdiction for Conwell-Egan Catholic High School (Fairless Hills, PA).

Mr. Lynch graduated from Bishop Egan High School in 1972 and has a Bachelor's degree in Commerce from Rider University, New Jersey.

Questions About
Classes at
School

Intensive English Language Programs

Intensive English Language program designed to help international students:

- Develop and strengthen English language skills
- Progressively enhance listening, speaking, reading and writing skills
- Understand American academic expectations
- Transition into U.S. classrooms successfully

Standardized Test Prep

Test prep classes are available for:

SAT & TOEFL

* An additional fee will be charged for the standardized test preparation classes.

ACADEMIC & UNIVERSITY College Consulting

Whether a student is falling behind or excelling in school, the advising program functions as a personalized student support system designed to assist them with maximizing their academic opportunities.

Each student is assigned an academic advisor whom they meet with regularly to review their academic progress and experience at school. At these one-on-one sessions, students and advisors work together to address ongoing projects and develop road maps for achieving goals.

Advisors can help with...

- Identifying Personal Motivations & Academic interests
- U.S. University Admissions
- Evaluating Academic Progress
- Goal-Setting
- Course Selection Planning
- Supportive Transitioning to U.S. School Environment
- Resume Building

* College consulting is for those who registered/ there will be additional charge.

ASSISTING STUDENTS ENTERING MEDICAL FIELD

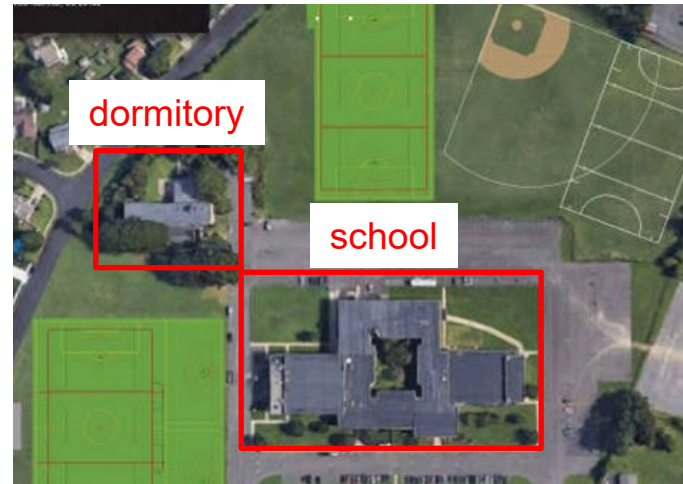

The longevity and affordability of medical schools may factor into international students' decision to avoid pursuing studies in the medical field. Opportunely, **students who stay at the CEC dorms will receive information and support for entering into the medical field and other academic majors such as:**

- 1) Physician Assistant (PA):** Work under physician's supervision to diagnose, treat illnesses, and prescribe medications for patients. There are plenty of job opportunities within this field such as an Urgent Care Physician Assistant and an ICU Physician Assistant.
- 2) Nurse:** Monitor and record symptoms in patient's condition. In medical centers, nursing is continuously growing high in demand, which will give nursing students a higher rate of acquiring a job.
- 3) Dentist:** Help patients develop better oral hygiene. Students will be able to enroll in undergrad pre-dental programs to prepare for dental schools. The demand for dental services continues to grow, which presumes more job opportunities for dental students.
- 4) Pharmacist:** Prepare, dispense, and control medications for customers and patients. Students will be exposed to early pharmaceutical studies which will prepare them for future job opportunity.
- 5) Chiropractor:** Examine a patient's physical condition and medical history to treat spine and joint pains. All age groups are increasingly becoming interested in improving overall physical wellness, which is demanding more employment of chiropractors.
- 6) Clinical Laboratory Scientists (CLS):** Provide data and aspects of medicine to determine the best treatment for patients. This field of study can be a great stepping stone as it can also open doors to other medical fields.

YEARLY GOALS & OBJECTIVES

9 th GRADE	10 th GRADE
<ul style="list-style-type: none">• Transition and Adjust to U.S. Academic Expectations	<ul style="list-style-type: none">• Resume-Building• Explore and Research Prospective Careers and University Majors
